

How to Deposit Money in the Yaarwin Game: Step-by-Step Guide

Published: Direct Guides • 3 Min Read • Instant UPI Top-Up

Looking to add funds quickly to your **Yaarwin Game** account and dive straight into the action? Adding money to your balance is fast, seamless, and secure using standard UPI payment applications like PhonePe, Paytm, or Google Pay. Follow this comprehensive step-by-step tutorial to complete your transaction in just a couple of minutes!

BEFORE YOU BEGIN

- Ensure you have an active UPI app installed on your mobile phone (PhonePe, Paytm, Google Pay, BHIM, etc.).
- Keep your mobile device handy to switch easily between the Yaarwin App and your payment application.

Complete 6-Step Deposit Process

STEP 1 Open the App & Navigate to Deposit

Launch the official **Yaarwin Game app** on your mobile device. From the main dashboard or home menu, locate and tap on the **Deposit** button to access the payment gateway.

STEP 2 Select or Enter Your Deposit Amount

Choose your desired deposit value. You can select one of the pre-set deposit options or manually type in your customized amount (e.g., ₹100). Once entered, tap the **Proceed** button.

STEP 3 Generate and Capture the Payment QR Code

A unique payment QR code will immediately appear on your screen. Take a quick screenshot of the QR code (if paying on the same phone) or scan it directly using another device.

STEP 4 Complete Payment via Any UPI App

Open your preferred UPI payment application—such as **PhonePe**, **Paytm**, **Google Pay**, or any bank UPI app. Use the "Scan QR Code" feature (or upload the saved screenshot from your gallery) to execute the payment of your chosen amount.

STEP 5 Copy the 12-Digit UTR / Reference Number

Once the transaction succeeds in your UPI app, navigate to the transaction details/history screen. Locate and copy the unique **12-digit UTR or Reference Number** (also referred to as Transaction ID or Ref No.).

STEP 6 Submit UTR to Instant Credit Your Funds

Switch back to the deposit screen in the **Yaarwin Game app**. Paste your copied 12-digit UTR number into the verification box and click **Submit**. Your account balance will update instantly!

Pro Tip for Fast Verification

Double-check that the 12-digit UTR number is pasted correctly without any extra spaces. Entering the exact UTR ensures instant auto-credited account balance without manual delays.
